# PROBLEM STATEMENT

Hoya Weather

1

## DECISION MAKING

*Without reliable weather data, individuals and organizations alike may struggle to make informed decisions, leading to potential risks and even financial losses.*

2

## TRADITIONAL MODE OF DATA

*Traditional weather reporting channels such as television and radio broadcasts, may not provide the real-time data and customization options that many individuals and organizations require*

3

## OTHER WEATHER PREDICTIONS

*Along with temperature - the app also measures humidity, wind speed/hr and the %of clouds and likelihood to rain.*

# SOLUTION FOR DIFFERENT INDUSTRIES

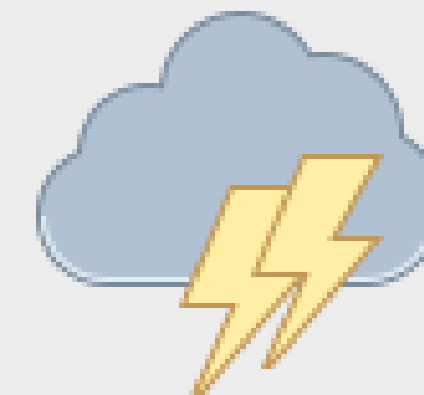

## Agriculture

Farmer needs weather information for planting, harvesting and irrigation decisions

## Tourism

Businesses such as hotels and resorts may need to adjust their marketing and operational strategies based on weather conditions.

## Construction

Weather can impact construction projects, particularly outdoor projects such as road construction or building construction

## Energy

Weather impacts renewable energy sources like wind and solar. Informed decisions about when to produce and distribute energy can be made.

## Aviation
