

Individual Writing Assignment #3

(Due Tuesday January 31st, 2023)

Case Study 2: Operations Management Simulation: Balancing Process Capacity

Car Wash Operation

Based on your experience with the Simulation (and your own experience):

What are some specific solutions you can provide for dealing with both Process and Demand Variability?

Please use examples and **limit your response to one page plus exhibits** (if necessary).

The assignment is due by Session 6 (before the beginning of the session). **Please send an electronic version of your paper via Canvas and bring a hard copy to class.**
